PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building scalable, high-performance full-stack applications using MongoDB, Express.js, React.js, and Node.js. Experienced in building real-time and AI-powered web applications using modern MERN stack technologies. Skilled in REST API development, Socket.IO, authentication systems, AI integrations, and deployment using Docker, Vercel, and Render.

EXPERIENCE

MERN Stack Developer Intern

Aug 2025 – Present

Bridgeon Solutions

Malappuram, Kerala

- Engineered scalable full-stack web applications using the MERN stack from development to deployment.
- Designed secure RESTful APIs with JWT authentication and role-based authorization.
- Implemented real-time messaging and live presence tracking using Socket.IO and Redis caching.
- Built responsive React.js user interfaces with seamless backend integration.
- Deployed applications using Docker, Vercel, and Render while optimizing performance and scalability.
- Collaborated with team members using Git and GitHub for version control and workflow management.

PROJECTS

OrbitOnCX | *AI-Powered Coding Learning Platform* | Live | GitHub

- Architected and deployed a production-grade full-stack coding learning platform using the MERN stack, Docker, Vercel, and Render.
- Built an in-browser code execution environment using Monaco Editor and Judge0 API with multi-language support.
- Integrated Groq AI for intelligent code explanation, debugging support, and coding assistance.
- Designed a LeetCode-style problem-solving system with discussions, real-time messaging, and live presence tracking powered by Socket.IO.
- Implemented secure backend architecture using REST APIs, RBAC, Redis caching, and MongoDB with Mongoose.

GoCart | *Scalable MERN E-Commerce Platform* | GitHub

- Architected a scalable full-stack e-commerce platform using the MERN stack with modular architecture.
- Built responsive React.js interfaces using Tailwind CSS and React Hooks.
- Designed secure RESTful APIs with JWT authentication and RBAC.
- Implemented cart, wishlist, checkout, order management, and admin dashboard features.

Notepad | *Open Source Contribution* | GitHub

- Contributed to a popular open-source Notepad project with 181+ GitHub stars.
- Implemented Full-Screen Mode, Download functionality, Shortcut Display, and Save & Quit popup.
- Collaborated through pull requests and code reviews in an active open-source community.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Context API

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication, Cookie-Based Authentication, RBAC, Redis

Database: MongoDB, Mongoose, MongoDB Atlas, Aggregation Pipeline, CRUD Operations

UI Libraries: Tailwind CSS, Material Tailwind, shadcn/ui, Framer Motion

Cloud & Deployment: Docker, Vercel, Render

Tools: Git, GitHub, Postman, VS Code, npm, pnpm

EDUCATION

Bachelor's in Computer Science

2022 – 2025

Nasra College of Arts and Science

Kerala, India
