

Shifin Malik P

MERN Stack Developer • Full-Stack Web Developer

shifinmalik46@gmail.com | 8590311750 | Kerala, India | shifinmalik.me | GitHub | LinkedIn | LeetCode

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building scalable, high-performance full-stack applications using MongoDB, Express.js, React.js, and Node.js. Experienced in building real-time and AI-powered web applications using modern MERN stack technologies. Skilled in REST API development, Socket.IO, authentication systems, AI integrations, and deployment using Docker, Vercel, and Render. Passionate about writing clean, maintainable code and solving real-world problems in collaborative environments.

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern

Bridgeon Solutions

Aug 2025 – Present

Malappuram, Kerala

- Engineered scalable full-stack web applications using the MERN stack from development to deployment.
- Designed secure RESTful APIs with JWT authentication and role-based authorization.
- Implemented real-time messaging and live presence tracking features using Socket.IO and Redis caching.
- Built responsive, component-driven React.js user interfaces with seamless backend integration.
- Deployed applications using Docker, Vercel, and Render while optimizing performance and scalability.
- Collaborated with team members using Git and GitHub for version control, code reviews, and workflow management.

PROJECTS

OrbitOnCX — AI-Powered Coding Learning Platform | *MERN Stack*

Live | GitHub

- Architected and deployed a production-grade full-stack coding learning platform using the MERN stack, Docker, Vercel, and Render.
- Built an in-browser code execution environment using Monaco Editor and Judge0 API with multi-language support.
- Integrated Groq AI for intelligent code explanation, debugging support, and context-aware coding assistance.
- Designed a LeetCode-style problem-solving system with discussions, real-time messaging, and live user presence tracking powered by Socket.IO.
- Developed a language-specific quiz engine with a dynamic leaderboard to drive competitive user engagement.
- Implemented secure backend architecture using REST APIs, cookie-based authentication, RBAC, Redis caching, and MongoDB with Mongoose.
- Built a responsive frontend using React.js and Tailwind CSS with lazy loading, code splitting, and optimized state management.
- Delivered an admin dashboard for user management and platform activity monitoring; tested APIs using Postman.

GoCart — Scalable MERN E-Commerce Platform | *MERN Stack*

Live | GitHub

- Architected a scalable full-stack e-commerce platform using the MERN stack with modular frontend and backend architecture.
- Built responsive React.js user interfaces using React Hooks and Tailwind CSS for a seamless shopping experience.
- Designed secure RESTful APIs with Node.js and Express.js featuring JWT authentication and RBAC.
- Implemented cart, wishlist, checkout, product management, order management, and admin dashboard features.
- Managed application data using MongoDB and Mongoose with optimized database operations and schema design.

Notepad — Open Source Contribution | *Svelte, TypeScript, Tailwind CSS*

Live | GitHub

- Contributed to a popular open-source Notepad project with 181+ GitHub stars.
- Implemented Full-Screen Mode, enhanced menubar, Download functionality, Shortcut Display, and Save & Quit confirmation popup.
- Collaborated through pull requests, code reviews, and production-quality feature delivery within an active open-source community.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, React Hooks, Redux Toolkit, Context API

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication, Cookie-Based Authentication, RBAC, Redis, Middleware Development, MVC Architecture

Database: MongoDB, Mongoose, MongoDB Atlas, MongoDB Compass, Redis, CRUD Operations, Aggregation Pipeline, Data Modeling

UI Libraries & Styling: Tailwind CSS, Material Tailwind, shadcn/ui, Magic UI, Aceternity UI, Framer Motion

Cloud & Deployment: Docker, Vercel, Render, MongoDB Atlas

Tools: Git, GitHub, Postman, VS Code, npm, pnpm

Concepts: Full-Stack Development, Authentication & Authorization, API Security, Scalable Architecture, Clean Code Principles

EDUCATION

Bachelor's in Computer Science

2022 – 2025

Nasra College of Arts and Science

LANGUAGES

English, Malayalam
